

## Clinical Research Scholars – Junior 1 and 2, Senior

Program category: Career Awards

Notice of intent: **August 24, 2015, 4:30 pm**

Application deadline : **October 1, 2015, 4:30 pm**

**Program Manager**

Diane Farhat

514 873-2114

poste 1240

[diane.farhat@frq.gouv.qc.ca](mailto:diane.farhat@frq.gouv.qc.ca)

**All documents referred in blue are available on the internet (link) or in the toolbox of the program web page on the FRQS website.**

This program is designed to facilitate the recruitment of qualified clinician researchers seeking to begin or continue an independent career in health research. With this program, the FRQS intends to promote continuity in health research in Québec and ensure that high-calibre scientists are available to meet the needs of universities, hospitals and industries.

Applicants must **hold a professional degree in a health-related field** and work as **half-time researchers** (at least 50% of their working hours). This program is divided into three research areas: 1) **basic research**; 2) **clinical and epidemiological research**; and 3) **research on health and society**.

### ELIGIBILITY REQUIREMENTS

**Eligible applicants**

- Applicants who hold a professional university degree in health sciences at the doctoral level (M.D., D.D.S., etc.), a valid license to practice, and at least two continuous years of additional research training, with at least 50% of time devoted to research.
- The license must remain valid throughout the duration of the award.
- Canadian citizens or permanent residents (as defined in section 2.1 of the [Common General Rules](#)) and domiciled in Québec at the time the award comes into effect.

Candidates may apply:

- A maximum of **three** times in the four years in which they are classified Junior 1 (0 to 3 years' experience).
- A maximum of **two** times in the four years in which they are classified Junior 2 (4 to 7 years' experience).
- A maximum of **two** times in the four years in which they are classified Senior (8 to 11 years' experience). See the [Research experience](#) section.

**Not eligible:**

- Directors or associate scientific directors of research centers funded by the FRQS or senior managers in university-level teaching institutions (unless permission in writing has been obtained from the FRQS)

Applicants holding an award with more than **12 months** remaining as of **October 1, 2015**.

**Terms and conditions**

- Must be working in Québec as a clinician in a health-care institution in the Ministère de la Santé et des Services sociaux (MSSS) network
- Must have permission from the director of the department or research director of an institution recognized by the FRQS to conduct research activities (see section on [Research location](#))
- Must have a commitment from the university that the applicant will be appointed to a university position as soon as the award comes into effect
- Must devote at least 50% of his/her working hours to research while carrying on clinical activities at a level satisfactory to the FRQS (at least 25%)

Health-care professionals who hold a valid license to practice in Québec and spend **at least 75% or more** on their working hours on research may apply for the following program: **Research Scholars – Junior 1 and 2, Senior**

- obtain the university approval required by the FRQS
- Must demonstrate the capacity or potential to be a competitive researcher at the national and international levels
- Must have supervisory privileges, directing students enrolled in a research training program to the satisfaction of the FRQS
- Must demonstrate the capacity or potential to collaborate with researchers from other disciplines
- Must comply with the provisions of the Québec Health Insurance Act (section XII, articles 95 to 104) regarding research scholarships. Specifically, all applicants must agree to comply with the provisions of the Act regarding the awarding of research scholarships (article 96):

*"No one shall be entitled to a research scholarship if, in the opinion of the Fonds de recherche du Québec - Santé under the Act respecting the Ministère du Développement économique, de l'innovation et de l'Exportation."(chapter M-30.01),*

1. He/she is not domiciled in Québec;

2. He/she does not have a working knowledge of the official language of Québec;
3. He/she is not pursuing, for a university body or for an institution, research in connection with one of the health sciences."

**Basic research ethics training**

Basic research ethics training is compulsory for all FRQS awardees conducting research projects that involve human subjects.

Research that involves human subjects includes work on :

- Living human subjects
- Cadavers, human remains, tissues, biological fluids, gametes, embryos or fetuses, cells or genetic materials

Personal information from files that enables a person to be identified.

Awardees must therefore successfully complete levels 1 and 3 of the [Online Tutorial in Research Ethics](#) developed by the Ministère de la Santé et des Services sociaux.

This training must be completed in the year following the receipt of a confirmation from the FRQS that the award was granted.

In addition, all career researchers must attend a Research Ethics Board (REB) meeting as observers. The REB must be affiliated with a university or with an institution within the health and social services network. Participation must occur within two years of receipt of a positive response concerning the FRQS award.

**RESEARCH AREAS**

All applicants who hold a doctoral degree in research or a professional degree in health sciences at the doctoral level are required to choose one of the following research areas:

**Basic science**

This includes the basic biological mechanisms of health at the molecular, cellular, tissue and integrative levels, including all research that uses intact animal organisms or their cellular components, cellular descendants, or human cells and tissues. Research that involves the participation of human subjects is included under this heading as long as it involves basic mechanisms.

**Clinical and epidemiological science**

In general, this includes all biological, medical and epidemiological research that involves the participation of human subjects.

**Health and society**

This includes research on individual, social and cultural factors and interactions among them that are linked to health status or behaviours. There are many social and cultural factors that are relevant to health: the organization and provision of health care, social and health-care policy, education, economics and employment, the media, ethical issues, the environment in which we live, and so on.

It is possible to combine two areas of research; for example, basic science and clinical and epidemiological science may intersect in research projects that involve human subjects

After reviewing the Notices of Intent, the FRQS may recommend that an applicant redirect his or her application to the research area in which the Review Committee possesses the most appropriate expertise for reviewing the file. In doubt, applicants are invited to contact the FRQS.

## REQUIRED DOCUMENTS – NOTICE OF INTENT

### Applicants

**Documents sent via mail or e-mail will not be accepted  
Transmission via the FRQS Web site only**

- **Electronic form**
- **Canadian Common CV , Funding CV version**, for the FRQS (updated);
- detailed contributions (attachment required through the FRQS **Electronic Portfolio** on the **Canadian Common CV** page), consult the **Guidelines for the CV attachment** available in the toolbox
- The *Notice of Intent* enables the FRQS to:
  - Establish the applicant's eligibility
  - Verify the type of program and area of research chosen by the applicant (see section on **Research areas**) and assign the applicant to a preliminary category based on experience (see section on **Research experience**) in order to recruit peer-review committees. Scientific reviews are not based on the *Notice of Intent*.
  - Obtain the university approval

The FRQS will confirm applicants' eligibility by e-mail in early September.

Only those applicants who are deemed to be eligible and have been approved by the university may submit applications.

## REQUIRED DOCUMENTS – COMPLETE APPLICATION

### Applicants

**Transmission via the FRQS Web site only**

- **Canadian Common CV , Funding CV version**, for the FRQS (updated);
- Detailed contributions (attachment required through the FRQS portal on the Canadian Common CV page), consult the **Guidelines for the CV attachment** available in the toolbox;
- **Application form** including:
  - Copies of the notices of awards and grants received since October 1, 2010 (other than those attributed by the FRQS)
  - An official copy of the degree(s) establishing the applicant's eligibility for the program (Ph.D., MD, D.D.S., etc.) bearing the official seal of the university or a copy certified by a notary or commissioner of oaths, except for applicants

	<p>who are already FRQS research scholars or clinical research scholars.</p> <ul style="list-style-type: none"> <li>○ A copy of the applicant's highest specialist license (CSPQ, FRCPC, etc.) or second degree (M.Sc.), if applicable.</li> <li>○ If applicable, a copy of the applicant's Québec Selection Certificate or permanent residence card, or work permit</li> </ul> <p><b>E-mail transmission (PDF documents only)</b> The e-mail transmission date will attest to the date on which the documents were submitted</p> <ul style="list-style-type: none"> <li>• Applicants who are registered in a M.Sc. or Ph.D. program must submit proof attesting that they will have fulfilled the program requirements to obtain their degree by <b>June 30, 2016</b>.</li> <li>• Proof of membership to a professional corporation (if applicable) certifying that the applicant will be entitled to practice in Québec by <b>June 30, 2016</b>.</li> <li>• If the license is to be delivered after June 30, 2016, the applicant must advise the FRQS in writing prior to the deadline.</li> </ul>
<b>Directors of university research centres or departments</b>	<ul style="list-style-type: none"> <li>• <b>Electronic form</b></li> </ul>
<b>Two respondents (Junior 1 applicants only)</b>	<ul style="list-style-type: none"> <li>• Form including 2 letters of recommendation from 2 respondents who are familiar with the applicant's work. One of the respondents must have been involved in the applicant's most recent research training.</li> </ul>
<b>Mentor (Junior 1 applicants only)</b>	<ul style="list-style-type: none"> <li>• Form including the applicant's mentorship plan, which must describe the arrangement for the first year of the grant and a four-year outlook (max. 2 pages). The letter must detail the support provided by an experienced researcher in terms of preparing applications, planning and carrying out the research program and ensuring support for other aspects of the applicant's career.</li> </ul>
<b>Application update</b>	<p>Applicants may update their award notices and publication lists until <b>January 10, 2016</b>.</p> <p>Please include grant confirmations and acknowledgements from editors for articles that are accepted for publication and submitted (do not include the articles). One PDF document must be sent to the program officer. The file name must include the applicant's name, application number and research topic. No other documents will be accepted.</p> <p>After <b>January 10, 2016</b>, applicants may only submit the results of funding competitions in PDF format. These documents will be forwarded to the evaluation committee.</p>
<b>Confirmation</b>	<p>Applicants will receive e-mail confirmation of receipt of application in November.</p>

## RESEARCH LOCATION

<b>Choice of research location</b>	<ul style="list-style-type: none"> <li>At an FRQS group or centre, an institution administered by the Ministère de la Santé et des Services sociaux (MSSS) or a Québec university</li> </ul> <p>Applicants may conduct their research outside the MSSS network or outside the FRQS network of research centres if they belong to a team or laboratory working on health-care issues recognized by the FRQS.</p> <ul style="list-style-type: none"> <li>in an industrial setting</li> </ul> <p>An agreement may be signed between the FRQS, the host company and a university, depending on the applicant's particular case. Under such an agreement, the applicant will conduct an innovative research program and train graduate students.</p>
<b>Change of research location</b>	<p>The FRQS presumes that the Research Scholar will work at the institution or university that approved his or her application throughout the award period.</p> <p>Awardees wishing to change their research location must send the FRQS a written request detailing the reasons for the change and describing how it could affect their research project.</p> <p>University authorities must give the FRQS written notice that they have approved the change.</p> <p>The director of the new research centre or university department must inform the FRQS in writing that he/she accepts the applicant and will provide conditions equivalent to those outlined in the form submitted by the director of the previous centre.</p>

## RESEARCH EXPERIENCE

	<p>The FRQS will classify the applicant as a Junior 1, Junior 2 or Senior Researcher and notify the applicant of his or her classification. On receiving such notice, the applicant has 10 business days to request a review of his or her classification, specifying the reasons for the claim.</p> <p>Classification is based on a given reference year as of which applicants demonstrate their capacity for independent research. Within the meaning of the FRQS, this capacity is demonstrated or should have been demonstrated:</p> <ul style="list-style-type: none"> <li>At the time when the application for the Junior 1 Research Scholars is filed,</li> <li>When applicants obtain a career award comparable to a Junior 1 Research Scholar award or a grant awarded by an organization recognized by the FRQS for a project in which they were the principal investigator,</li> <li>Or no later than 6 years after applicants have obtained their most recent university degree (Ph.D., MD, D.D.S., etc., or an M. Sc. as a second degree by June 30, 2016) or since qualifying as a medical specialist (C.S.P.Q., FRCP).</li> </ul> <p>When one of these conditions is met, applicants are classified Junior 1 with 0 years of experience, and, as of this point, the number of years of experience is updated</p>
--	--

annually. Applicants with 4 to 7 years' experience are classified Junior 2, and those with 8 to 11 years' experience are classified Senior. For the FRQS, each year of experience is calculated at the effective starting date of the award (July 1<sup>st</sup>).

In calculating years of experience, the FRQS may take into account particular situations that may cause applicants to temporarily put their research on hold (e.g. pregnancy, illness, professional activities not involving research: clinical, treatment, management, etc.) and may subtract such years when calculating years of experience.

## DURATION OF THE AWARD

<b>Effective starting date</b>	Between <b>July 1 and September 30, 2016</b>
<b>Duration</b>	<p><b>Junior 1: 4 years for all applicants</b></p> <p><b>Junior 2: maximum 4 years</b></p> <p><b>Senior: maximum 4 years</b></p> <p>The duration of Junior 1 award is 4 years, regardless of the level of experience calculated at the time the award is received by the applicant. At the end of the 4 years of the Junior 1 award, awardees are promoted to Junior 2 status with 4 years' experience in research. The number of years of experience is updated annually as of this new reference year.</p> <p>For the Junior 2 and Senior classification level, the duration of the award is a maximum of 4 years which decreases with the number of years of experience. For example, the duration of a Junior 2 award is 4 years if the number of years of experience is deemed to be 4, 3 years if there are 5 years of experience, 2 years for 6 years of experience, and 1 year for the Junior 2 level (with one year credited towards the Senior level) for awardees with 7 years' experience.</p> <p>For the Senior category, the FRQS undertakes to remunerate the applicant in decreasing amounts. (See <b>Amount of the Award</b>)</p>
<b>Parental leave</b>	<p>Awardees are entitled to take parental leave (maternity, paternity or adoption leave). The award may be deferred for a maximum of two years.</p> <p>The awardee must give the FRQS written notice of his/her intention to take parental leave.</p>
<b>Sabbatical leave</b>	<p>Research Scholars will receive their full stipend during a sabbatical year as long as they meet the following requirements:</p> <ul style="list-style-type: none"> <li>• Be a Senior or Junior 2 Research Scholar with six years of experience based on the FRQS classification</li> <li>• Send the FRQS a request for a sabbatical of up to 12 months</li> <li>• Send the FRQS a complementary training program or program of activities that will advance the research project</li> </ul>

The program must be accepted in writing by the FRQS at least **60 days** before the starting date of the sabbatical.

- Send the FRQS a copy of the sabbatical approval signed by the university authorities or by the administrators of the institution where he/she works.
- If applicable, send the FRQS official notice that the laboratory has agreed to host the Research Scholar.

**Sick leave**

The awardee may defer the award in case of serious illness (his or her own or the illness of a close family member) upon presentation of a medical certificate that includes the precise length of leave prescribed by the physician. Payments will be suspended during that period.

**AMOUNT OF THE AWARD**

**Amount**

From **\$18,003 to \$53,082**, including benefits of **12%**, based on years of experience.

This award corresponds to **60%** of the award for Research Scholars in the Research Scholars – Junior 1 and 2 and Senior program.

The pay scale for Clinical Research Scholars is set by the government of Québec and appears in article 52 of section XVI of the Bylaws to the Québec Health Insurance Act.

This amount must be supplemented by the university (see section on **University authorities' agreement**)

**University share**

For the Senior category, the FRQS undertakes to pay the applicant in decreasing amounts:

- 8 years of experience** 100 %
- 9 years of experience** 100 %
- 10 years of experience** 75 %
- 11 years of experience** 50 %

This policy is designed to ensure that the host institution agrees to supplement the applicant's salary and offer him or her a position (see section on **University authorities' agreement**)

**Indirect costs of research**

This program does not benefit from the amount paid out by FRQS to cover indirect costs of research of the institutions.

## STARTING GRANT FOR YOUNG INVESTIGATORS

	Individuals who apply to the FRQS competition for Junior 1 research scholars will also receive a starting grant for young investigators – Junior 1 from the FRQS valued at <b>\$15,000/year for three (3) years</b> , non-renewable.
<b>Restrictions</b>	When a researcher receives an FRQS starting grant and a starting grant from another research institution, the FRQS will deduct the amount received from the other institution from the FRQS grant. Grant holders and the individuals who manage the grants are jointly responsible for advising the FRQS that two grants were awarded.
<b>Eligible expenses</b>	Expenses directly related to research activities: <ul style="list-style-type: none"> <li>• Purchase research material or carry out the research project</li> <li>• Purchase or rent equipment (only grant holders who have not received a Leaders Opportunity Fund grant from the Canada Foundation for Innovation)</li> <li>• Pay out salaries to technical and clinical research staff</li> <li>• Take part in conferences (presentations, posters), up to <b>\$ 10,000</b> for the term of the grant</li> </ul>
<b>Non-eligible expenses</b>	Rent or renovate premises or cover heating or electricity costs or any other indirect costs related to the research activities for a researcher working in an institution of the Ministère de la Santé et des Services sociaux or a Quebec university
<b>Indirect costs of research</b>	The starting grant associated with the research scholars program does not benefit from the amount paid out by FRQS to cover indirect costs of research of the institutions.

## OTHER SOURCES OF FUNDING

<b>Concurrent funding</b>	See <a href="#">Common General Rules</a> , art. 6.12  A Canada Research Chair cannot be concurrently held with a salary award from the FRQS or an establishment of young researcher – Junior 1 grant.
---------------------------	---

## EVALUATION

<b>Process</b>	All applications are reviewed by a peer-review committee made up of members representing various health disciplines and research methodologies.  The applications will be categorized and assessed based on the research area (basic, clinical and epidemiological or health and society) and research experience (Junior 1, Junior 2 or Senior).
----------------	---

The FRQS will recruit 4 review committees for clinical research scholars:

Experience	Basic science	Clinical and epidemiological	Health and society
Junior 1	Committee 3	Committee 1	Committee 4
Junior 2		Committee 2	
Senior			

### Criteria

Different criteria are used based on the area of research; its relative importance in the overall review by the peer-review committees may vary depending on the classification level - Junior 1, Junior 2 or Senior:

- The review of the applicant's research training and proposed research project is of greater relative importance at the Junior 1 level
- The review of the applicant's outreach and productivity in terms of training students and obtaining grants assumes increasing importance at the Junior 2 and Senior levels

The evaluation criteria for each level are detailed in the Evaluation grids.

## APPLICANT'S AGREEMENT

In submitting an application, the applicant must:

- Comply with the obligations outlined in the [Common General Rules](#) of the three Fonds and in the [Policy Regarding Open Access to Published Research Outputs](#) as well as with the conditions and requirements outlined in the online program description.
- Comply with the provisions of the Health Insurance Act pertaining to research grants (division XII, article 96): " No one shall be entitled to a research scholarship if, in the opinion of the Québec Research Fund–Health established pursuant to the Act respecting the Ministère de la Recherche, de la Science et de la Technologie (chapter M-30.01):
  - He/she is not domiciled in Québec;
  - He/she does not have a working knowledge of the official language of Québec;
  - He/she is not pursuing, for a university body or for an institution, research in connection with one of the health sciences."
- Comply with the ethics and integrity standards outlined in the FRQS document [Standards en éthique de la recherche et d'intégrité scientifique](#) and in the [Policy for the Responsible Conduct of Research](#) of the Fonds de recherche du Québec

- Carry out the responsibilities of a researcher, as defined by the Ministère du Développement Économique, de l'Innovation et de l'Exportation in the [Action Plan – Managing Intellectual Property in universities and institutions of the health and social service network where research activities are conducted](#);
- Authorize the FRQS to retain and use the personal and scientific information included in the application documents, in keeping with the terms outlined in the document [Accès aux documents et protection des renseignements personnels](#) and provided that the people who are granted access to the information respect its confidentiality.

## UNIVERSITY AUTHORITIES 'AGREEMENT

<b>Approval</b>	The university approves applications and assumes the responsibilities listed below jointly with the head of the department with which the applicant is affiliated and the research centre where the research will be conducted (if applicable).
<b>Salary supplement</b>	<ul style="list-style-type: none"> <li>• University authorities supporting an application for a Research Scholar must ensure that the applicant will receive a salary supplement equal to the difference between the award and the remuneration that the applicant would receive from the university as a full-time professor, to the satisfaction of the FRQS.</li> <li>• Should the applicant have a mixed affiliation involving a company, the university and the partner must jointly endorse the Research Scholar's application.</li> </ul> <p>Under such circumstances, the partners must ensure that the applicant will receive a salary supplement equal to the difference between the award and the remuneration that the applicant would receive from the university or from the partner as a full-time professor or employee. A protocol of agreement must be signed with the FRQS to cover this partnership.</p>
<b>Confirmation of position – Senior Research Scholars</b>	<p>For applications in the Senior Research Scholar competition:</p> <ul style="list-style-type: none"> <li>• The university must agree to make the researcher part of the team on completion of the award and offer the applicant a full-time permanent position or a contract position for at least five years after the end of the award (at a salary commensurate with the applicant's university rank).</li> </ul>
<b>Benefits and laboratory or research premises</b>	<p>The applicant must be eligible to join the pension plan and enjoy other benefits available to full-time staff working at the university. These obligations imply that the researcher's salary will be administered by the university even if he or she works at a research centre.</p> <p>The host institution agrees to provide the functional laboratory or research premises and basic equipment the applicant requires for research purposes.</p>
<b>Protected time for research</b>	University and host institution administrators must jointly ensure that the applicant is released from his/her administrative, clinical and teaching duties so that he/she may fulfill the obligation to devote at least half (50%) of his/her professional activities to research.

## IMPORTANT MODIFICATIONS SINCE THE LAST COMPETITION

- Deadline (4:30 pm)
- Eligibility requirements
- Required documents
- Evaluation
- Applicant's agreement

## AWARDS OFFERED IN PARTNERSHIP

The FRQS offers a number of awards in collaboration with partners. The amounts of funding provided by the FRQS and the partner as well as other funding conditions (i.e. funding period and renewal option) may vary according to the agreements in effect.

Eligible applicants are selected through a three-step process:

1. Applicants must select, by priority order, one or more partners whose research domains are in line with the themes of the application (see section **Partenariats** [partnerships] on the form).
2. The FRQS will send the partners a list of applications. The partners will assess the relevance of the applications based on their interests and research priorities.
3. The applications will be assessed by a committee of experts or peers. Applications that obtain a score of at least 70% for scientific excellence and which are relevant to one or more partners may be offered partnership funding.

Like all other FRQS awards, the partnership awards are attributed based on merit following a scientific assessment by a committee of experts or peers.

<b>Allergy and Immunology</b> (Junior 1 only)	<b>AllerGen</b>
<b>Breast Cancer</b> (Junior 1 only)	<b>Fondation du cancer du sein du Québec</b>
<b>Cardiovascular and Cerebrovascular Health</b> (Junior 1 and Junior 2 only)	<b>Heart and Stroke Foundation of Québec</b>
<b>Child Health</b> (Junior 1 only)	<b>Canadian Child Health Clinician Scientist Program (CCHCSP)</b> All applicants must submit an application to the CCHCSP
<b>Early childhood diseases (diagnosis)</b> (Junior 1 only)	<b>Foundation of Stars</b> Research scholarships in pediatric research, primarily in the area of early childhood diseases diagnosis

<b>Emergency</b>	<b>Ministère de la Santé et des Services sociaux (MSSS) - Programme de recherche sur la problématique des urgences</b>
<b>Hypertension</b> (Junior 1 and Junior 2 only)	<b>Société québécoise d'hypertension artérielle (SQHA) - Jacques de Champlain Award</b> The Jacques de Champlain Award in cardiovascular health and hypertension areas includes a research support supplement.
<b>Infectious Diseases and AIDS</b>	<b>Ministère de la Santé et des Services sociaux (MSSS) Service de lutte contre les infections transmissibles sexuellement et par le sang (SLITSS)</b>
<b>Kidney Health</b> (Junior 1 only)	<b>The Kidney Foundation of Canada - KRESCENT Research Program (Kidney Research Scientist Core Education and National Training)</b> <b>Canadian Society of Nephrology</b> The applicant must also submit an application to the KRESCENT Program.
<b>Macular Degeneration</b>	<b>Fondation Antoine-Turmel</b> Priority will be given to doctoral and podoctoral training awards as well as career awards (Junior 1).
<b>Optimal Drug Use</b>	<b>Institut national d'excellence en santé et en services sociaux (INESSS)</b> The research theme of these research scholars is medication: pharmacology, phamacoepidemiology, clinical pharmacology, and evaluative research on drug use.
<b>Osteoporosis</b>	<b>Fondation Antoine Turmel</b> Priority will be given to Junior 1 awards.
<b>Palliative Care</b> (Junior 1 and Junior 2 only)	<b>Mount Sinai Hospital</b> This Research Scholarship aims at encouraging excellence and innovation in the field of palliative care research. The priority themes include: clinical studies in populations suffering from advanced diseases, patient-oriented palliative medicine, education of the nursing personnel in regards to end-of-life care, ethical dilemmas, and health care organization, in particular accessibility to the continuum of care and quality of home-based palliative care at home. The Mount-Sinai Hospital is a community-based hospital affiliated with McGill University offering a range of hospital and at home palliative care in collaboration with the local care partners. The palliative care unit comprises an interdisciplinary team whose mission aims at offering physical, emotional, social and spiritual support to the patients and their families.
<b>Parkinson's Disease</b>	<b>Parkinson Society Quebec</b>
<b>Radiology</b> (Junior 1 only)	<b>Fondation de l'Association des radiologistes du Québec (FARQ)</b> This award is aimed at research scholars in diagnostic radiology (including therapeutic and intervention impacts). Only radiologists (physicians) are eligible to apply.

<b>Suicide</b> (Junior 1 and Junior 2 only)	<b>Réseau québécois sur le suicide, les troubles de l'humeur et les troubles associés (RQSHA)</b>
--	---

<b>Traumatology</b>	<b>Traumatology Research Consortium</b> <ul style="list-style-type: none"><li>• Ministère de la Santé et des Services sociaux (MSSS)</li><li>• Société de l'assurance automobile du Québec (SAAQ)</li><li>• Provincial Rehabilitation Research Network (REPAR)</li><li>• Comité directeur pour la recherche en traumatologie (formely AERDPQ – AQESSS)</li></ul>
---------------------	--
